

Shayan Bargh Industrial Group

✓ **The Introduction of “Shayanbargh” Industrial Group**

“Shayan Bargh” Industrial Group was established in 1993 with the aim of designing and manufacturing electronic and electrical products and achieved great success in this field.

Then, in 2000, with the change in shareholders' composition and the employment of experienced engineers, new fields began with the construction of a factory in Arak. Then the group developed its products in the field of urban furniture and lighting. As it became one of the largest and most popular brands in the lighting industry in recent years.

At the end of the 2010s, the Co. began research into the design and manufacture of lighting products for urban, industrial and home applications. Now the Co. is known as the largest manufacturer of various lighting lamps (especially LEDs and solar panels) in Iran.

Now the Co.'s products are: LED Street Light, LED High Bay Light, LED Flood Light, LED Tube Light, LED FPL Light, LED Garden Light, Lighting Poles, Fancy Poles, Garden Poles, Solar Light Poles, and Lighting Towers.

These products have been used in most regions of Iran, both in industrial applications and in general applications. In addition, these products have been exported to neighboring countries, Persian Gulf States, CIS countries and other.

This group is also active in the field of Engineering, Procurement and Construction (EPC).

✓ **Board of directors' members**

1. Chairman of the Board: Mr. Morteza Badiei
2. CEO: Mr. Mohamad Beyranvand
3. Vice president: Mr. Mohammad Jamal Zadeh

✓ **Introducing a number of units**

Research and Development Unit

As a high-powered group, the unit offers new methods for the production of high-quality and modern products, synchronized with the state-of-the-art technology.

Through its research and development activities, this unit creates the field of making products better than before and unique, which increases the productivity of the product line. These activities are interconnected with other factors of production.

Design and Engineering Unit

Using the most advanced engineering software in the field of electrical, electronics, mechanical and metallurgical software, the unit is always trying to meet the needs of customers in referral projects.

In addition, the unit applies international standards related to metal structures and lighting fixtures.

Quality Control Units

The main purpose of these units is to ensure the production of quality products in accordance with national and international standards. Therefore, the task of this unit is to accurately and continuously monitor raw materials and production processes.

Production Units

The unit has two main parts: the construction of metal structures and the manufacture and assembly of electronic products.

Using modern machinery and tools, the unit provides and markets a wide range of products according to customer needs as soon as possible and with a high quality.

This unit is continuously cooperating with the planning, production control, warehousing and maintenance departments.

The manufacture and assembly of electronic products part is equipped with electronic boards (SMT, THT) production lines, automatic controllers and mechanized tables. In addition to increasing precision and speed, this equipment improves the quality of the product.

In the construction of metal structures part, there is a full production cycle of metal structures and lighting poles including massive and efficient equipment as well as bending, welding, cutting and machining equipment.

Photometric and Electrical Laboratory Unit

The “Shayan Bargh” industrial group Laboratory has advanced, precise and sometimes unique laboratory equipment, used for various photometric, electrical, humidity and temperature tests.

The purpose of this laboratory is to control product quality and provide experimental services to other suppliers.

Marketing, sales and product distribution Unit

This unit consists of experienced experts in the field of marketing and sales of products. It has two domestic and foreign sales (export) departments.

The experts have a close and continuous relationship with customers and try to know and provide the diverse needs of a wide range of customers.

Installation and After Sales Service Unit

This unit has dozens of experienced and competent specialists in all parts of the country, which provides as soon as possible the warranty and support services as well as the technical services required by customers.

Agencies Units

“Shayan Bargh” Industrial Group offers its products through a wide network of agencies throughout the country. Contact the unit for more information on the terms of the “Shayan Bargh” Industrial Group agency.

Administrative and Support Units

This unit consists of experienced experts in finance, administration, commerce and human resource management. The main task of this unit is to facilitate and accelerate management, operational, and production support.

The desirable combination of “Shayan Bargh” Industrial Group staff includes about thirty-five experienced engineers and experts with dozens of specialists in the field of production, installation, commissioning and technical support, administrative and financial support.

✓ Honors, Licenses, Certificates and Membership in Professional Associations

- Industrial sample unit of Markazi province, during the last sixteen years in a row from 2008 to 2023
- The sample industrial unit of the country in the field of electricity and electronics, selected by the Ministry of Industry, Mines and Trade in 1994
- Sample unit of research and development in 2018, 2019, 2020,2021,2022
- National industrial sample unit in the years 2015,2024
- Sample exporter of 2011, 2012, 2014, 2015, 2019, 2020;2021,2022 years
- Superior Research and Development Unit of The Country in 2022
- Superior Engineering Technical Unit of The Country in 2022
- Sample entrepreneur of the year 2007,2010,2021
- Top provincial brand of 1995
- Sample unit of national production in 2021
- The best unit of electrical and electrical equipment industries in 2021
- National sample unit R&D of the year 2021
- Has international certifications: ISO 45001: 2018 - ISO 14001: 2015 - ISO 9001: 2015 - HSE-MS
- Has a production exploitation license 31171 and 36552 from the Ministry of Industries and Mines
- Ranked 5 Energy disciplines from the Management and Planning Organization
- Has an R&D license from the Ministry of Industry No. 29060
- Approved by Tavanir and the Ministry of Oil
- Membership in the working group for developing standard technical specifications of Energy Consumption Optimization Organization (SABA)
- Membership in the Research and Development Association of the Ministry of Industries and Mines
- Membership in the vendor list of provincial electricity distribution companies
- Membership in the vendor list of Iranian oil companies

✓ Resume of Shayan Bargh Industrial Group

- Carrying out more than 450 projects in companies affiliated with the Ministry of Oil.
 - Carrying out more than 200 projects in companies affiliated to the Ministry of Energy.
 - Carrying out more than 450 projects in the governorates, governorates, municipalities and villages of the country.
 - Carrying out more than 250 projects in medical centers (hospitals and clinics, etc.).
 - Carrying out more than 180 projects in the country's recreational tourism centers.
 - Carrying out more than 180 projects in educational centers (universities, schools, etc.).
 - Carrying out more than 450 projects in government centers (roads and urban development, airports, cultural heritage, sports and youth, etc.)
 - Complete more than 150 projects in export.
 - Carrying out more than 600 projects in the country's factories.
 - Carrying out more than 1300 projects in cooperation with contractors and guilds.
- ▼ In the following, the list of projects is mentioned.
